

## HANDS-FREE CREDENTIALS

*Hands-free tags for Wander Management and Secure Access applications.*

### TRUE 3D DETECTION

Kareteq Hands-free credentials offer precise detection regardless of orientation or location on the body and adjustable detection field with the Supervuez Door Controller.

### MULTIPLE FORMATS

- The standard FOB tag fits comfortably in a pocket or purse, or can be attached to a lanyard.
- The cardholder tag provides slots to hold & display RFID Prox or ID Cards.
- The wrist tag and the watch tag are used on conjunction with Kareteq wander management reader controllers.

### INTERCHANGEABLE

Both the Prox card and Hands-free tags can be used interchangeably within an Advuez Wander Mgmt or Secure Access system providing convenience and compromise in credential cost.

### Replaceable Battery

All Advuez credentials feature replaceable standard Lithium watch batteries with an expected life of 2M+ activations (2-3 yrs).
